Rajesh T

Full Stack Software Engineer | Product Engineering | JavaScript | TypeScript | Python | AI Applications

rajesh.thangapandim@gmail.com +91 9626899770 LinkedIn GitHub

Professional Summary

Full Stack Software Engineer with 2 years of professional experience building and maintaining production web applications, backend services, API integrations, automation workflows, and AI-powered features. Experienced in full-stack product development, e-commerce workflows, third-party integrations, and production systems using React.js, Next.js, Node.js, Python, MongoDB, REST APIs, OpenAI APIs, LLM integrations, and cloud deployments.

Professional Experience

Developer **Jan 2026 – Oct 2026**
KokoFresh *Bengaluru*

- Built, maintained, and improved production e-commerce products and internal systems across frontend, backend, integrations, and automation.
- Developed full-stack applications using React.js, Next.js, Node.js, Python, MongoDB, and REST APIs, focusing on scalable product features and reliable production workflows.
- Implemented e-commerce workflows involving products, pricing, orders, checkout, payments, customers, and inventory.
- Integrated payment gateways, CRM platforms, WhatsApp APIs, Wix, Meta, Shiprocket, and other third-party services to automate business and customer workflows.
- Developed AI-powered features and automation workflows using Python, OpenAI APIs, LLM integrations, prompt engineering, and retrieval-based workflows.
- Troubleshot production issues, improved application performance, SEO, and analytics, and supported deployment and monitoring of production systems.

Application Developer **Apr 2025 – Jan 2026**
Reach Skyline *Chennai*

- Developed and maintained full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Built REST APIs, authentication systems, database-driven features, payment integrations, and responsive user interfaces.
- Improved application performance, SEO, API integrations, and production deployment workflows.

Full Stack Developer Trainee **Oct 2024 – Apr 2025**
Amigoways Technologies Pvt. Ltd. *Madurai*

- Built full-stack applications using Next.js, Node.js, Express.js, MongoDB, REST APIs, and authentication workflows.

Selected Projects

AI Knowledge Assistant *React.js | Node.js | Python | OpenAI API*

- Built a document-based AI assistant that processes uploaded documents, retrieves relevant context, and generates AI-powered responses using OpenAI APIs.
- Developed backend APIs and Python-based workflows for document processing, retrieval, and conversational interactions.

E-Commerce Platform *Next.js | Node.js | MongoDB | AWS*

- Built a full-stack e-commerce application with authentication, product and inventory management, REST APIs, order workflows, payment integration, and AWS deployment.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, Authentication, JWT, API Integration
AI: OpenAI API, LLM Integration, RAG, Prompt Engineering, AI Agents, Workflow Automation
Database & Cloud: MongoDB, PostgreSQL, MySQL, Redis, AWS, Docker, Git, GitHub

Education

Master of Computer Applications (Cloud & DevOps) **2022 – 2024**
Chandigarh University *India*
